

## **Planning A Mission Project**

VBS is the church's opportunity to show children how much fun we have as Christians, and how willing we are as adults to enter their world and show them Christ. Having a missions project at VBS is also an opportunity to show them how missionaries share Jesus with children in different parts of the world.

Ethiopia: In 1998 the Ethiopian Reformed Church (ERC) was established through the labors of our missionaries. Two congregations of the ERX have been planted and we rejoice in numerous opportunities to advance the cause of Christ in the surrounding countryside.

Suriname: IN this former Dutch colony, the Lord has caused an indigenous Reformed church to emerge in the capital city of Paramaribo and services are also being conducted in a nearby Arawak Indian village in response to the interest shown there in the preaching of the Word.

Uganda: We assist the Presbyterian Church in America in Uganda in church-planting, in preparing men for church offices and in training men for the gospel ministry at the Westminster Theological College in Mbale.
