

Tips to Help Achieve VBS Evangelistic Goals

1. Ensure that each staff member shares these goals, no matter what his/her area of responsibility within the VBS.
2. Back up every staff member and every phase of the VBS with earnest prayer.
3. Promote VBS in the neighborhoods that you target. This should include personal word-of-mouth invitations to unchurched families, friends and neighbors.
4. Hold training sessions for all staff members, teaching them how to present a clear gospel message throughout the lessons. The pastor or Christian Education Director can assist in training others in counseling and follow-up.
5. Make sure your teachers are prepared to encourage their students to make a commitment to Christ. Someone must be designated to take these students aside and give individual counseling.
6. Have a good follow-up plan in mind to keep in contact with all those with whom you have shared the gospel message and especially with those who make commitments.
